

Phyla

Sunday, December 5, 2021 7:50 PM

For 17-20* (above) These are domains. Name the domain and a trait / ecological role that these organisms specialize in. See p. 216 of textbook if you don't remember this from lecture.

The table below is for note-taking. You do not need to complete it for the Ex 2 Part 2 submission

Phylum	Traits	Symmetry	Common names	Example	Notes
Porifera					
Cnidaria					
Echinodermata					
Chordata					
Brachiopods					
Worms					
Molluscs					
Arthropods
